

PROSPERITY – HAVE

Prosperity and “Have-ing” go hand in hand. When we are happy in our lives and are being who we want to be, and are progressing towards our goals and dreams by doing what we feel is necessary we have peace of mind, we experience the emotions of joy, anticipation and excitement. We have the feeling of a job well done and the good kind of exhaustion of knowing we’ve done our best. The richness of applying our energy to our true selves and the journey that is ours to take is prosperity. Having the knowledge and belief that we have done all we can is the ultimate possession. The reality is that by first learning to be the best you can be brings true happiness. Naturally by being happy and living out that happiness comes the action of doing and the progress that occurs by implementation of the plan. All of it together is the life you’ve always wanted playing out before your very eyes. Everything works together and it’s all good. It all comes together because of YOU! See you really are in control. You really can shape your own destiny. You really can change your future. The life you want is right there waiting for you to reach out and grab it. So what are you waiting for? There are 2 things standing in your way.

1. Your limiting beliefs
2. Your happiness

You have control over both. You are not stuck. You have a choice. Think long, hard and well and choose wisely.
